SUMMARY

Motivated Computer Science Engineering (Cyber Security) student seeking opportunities to apply technical knowledge, develop practical skills, and contribute to innovative technology projects. Eager to build expertise in cybersecurity, networking, and software development.

SKILLS

- Cyber Security
- Python
- SQL
- Blockchain Basics
- CSS
- Microsoft Office
- Teamwork
- Time Management
- Computer Networks
- C Programming
- DBMS
- HTML
- Operating Systems
- Communication
- Leadership

EXPERIENCE

Internship, Pibots Robotics, June 2026–July 2026

- Gained hands-on experience in robotics and automation technologies through practical projects and team-based activities.
- Collaborated with technical teams to develop and maintain a portfolio website, enhancing web development and design skills.
- Applied problem-solving and analytical thinking to complete assigned tasks and improve project outcomes.
- Strengthened communication, teamwork, and technical documentation skills in a professional environment.

EDUCATION AND TRAINING

B.Tech

Computer Science and Engineering (Cyber Security), KMCT Institute of Emerging Technology and Management January 2024

Pursuing a Btech in Computer Science and Engineering (Cyber Security) with a strong foundation in cybersecurity, computer networks, programming, and database management. Actively developing technical skills through academic projects, practical learning, and hands-on experience in software development and security concepts.
